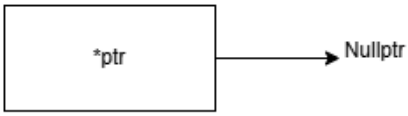
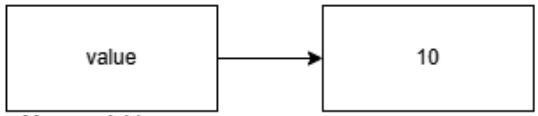
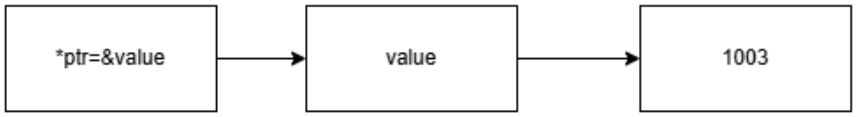
Esteta, Jesse Matthew L.
CPE21S2

1. *ptr=nullptr

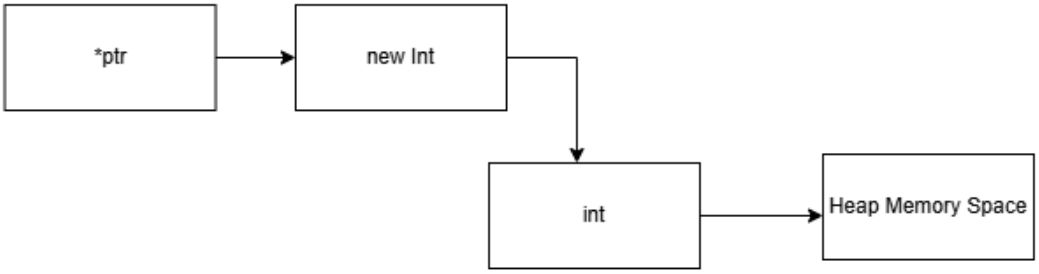


2.int value=10
int* ptr=&value

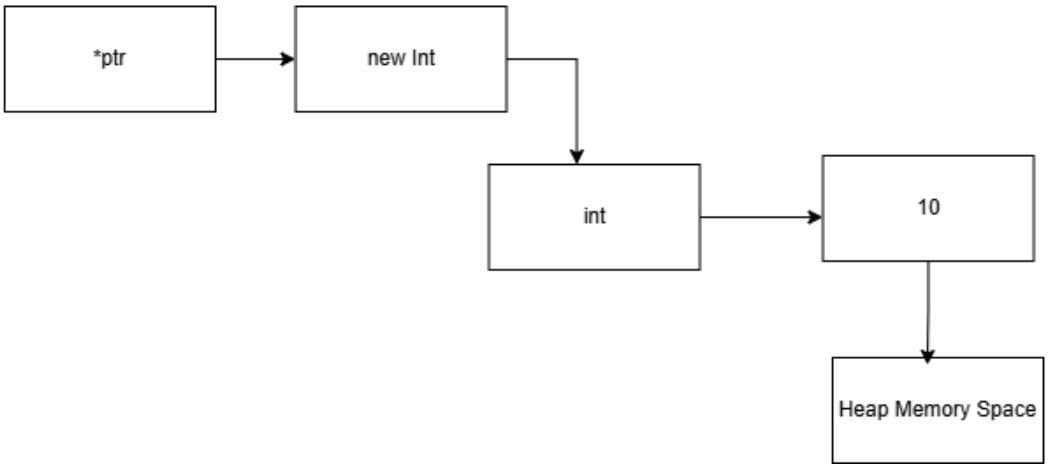




3.) int* ptr = new
int;



3.) int* ptr = new
int(10);



5.) Differentiate Constructor, Destructor, Copy Constructor, Copy Assignment Operator. Constructor initializes an object when it is created automatically called when an object, while Destructor cleans up resources before an object is deleted and is automatically called when an object gets deleted. Copy Constructor, creates a new object from an existing object, while Copy Assignment copies the contents of an existing object into another object.
